

## Visit Spanish Ambassador at Garamba National Park

Since last year, Spain has been involved in an important way in Garamba National Park through the Spanish Agency of International Cooperation, the Environment, Marine and Rural Ministry and the Independent Organism of Spanish National Parks.

Mr Felix Costales, the Spanish Ambassador in the Democratic Republic of Congo, has visited the Park from May 30th until June 2nd, to get familiar with the Park and to see with his own eyes the activities performed, the necessities and to talk about possible future aid.

Because of the fact that the rangers have started their patrols as from May 1st, the Ambassador was able to experience the richness of the Park by foot and by air.

Mr Felix Costales, Ambassador, among rangers of Garamba NP.
