

## Garamba on Spanish Television show "People from Madrid in the World"

On February 8, 2010 at least 500.000 people will hear about the work of African Parks at Garamba National Park.

A Spanish Production Company 'Telemadrid' ([www.telemadrid.es](http://www.telemadrid.es)), was eager to know about the work done by Garamba's Director, Luis Arranz, who is originating from Madrid. The film crew decided to spend 4 days in Garamba, filming the wildlife, the way of living in a National Park and the activities in the park.

The crew was very enthusiastic and they will not only show the beautiful scenery but also African Parks' website, which will be good publicity for us.

We hope this program will attract people's attention to come and visit Garamba National Park and to learn more about African Parks' work!

Park Director - Luis Arranz with the film crew
